Pelikn

The all-in-one operations platform replacing paper checklists, spreadsheet rotas and compliance chaos in independent hospitality.

THE PROBLEM

Independent venues are drowning in admin

180,000+ UK food businesses rely on fragmented, manual processes that waste time, cost money and put food safety ratings at risk.

Paper Compliance

HACCP logs and fridge checks kept in ring binders. Inspectors find gaps. Venues fail ratings. Average EHO fine: £10,000+.

Spreadsheet Rotas

Managers spend 3–5 hours weekly on Excel rotas and WhatsApp shift swaps. Timesheets are guesswork. Labour costs invisible.

Tool Fragmentation

Separate apps for temps, rotas, allergens, training and tasks. Five logins, five bills, five systems staff won't use.

OF VENUES STILL USE PAPER FOR FOOD SAFETY	SPENT ON ROTA ADMIN PER WEEK	AVERAGE SPEND ON FRAGMENTED TOOLS

THE SOLUTION

One app. Every operation. Zero paper.

Pelikn replaces the binder, the spreadsheet and the WhatsApp group with a single mobile-first platform purpose-built for independent hospitality.

HACCP-Grade Compliance

Fridge temps, cooking logs, hot holding, cooling records, probe calibration, cleaning schedules, delivery checks — all timestamped and audit-ready.

Smart Rota & Time Tracking

AI-assisted rota builder, PIN clock-in/out, break deductions, overtime alerts, CSV timesheet export. Real-time labour cost visibility.

Granular Staff Permissions

13 permission types across 3 categories. Presets for daily staff, senior staff and full access. Each team member sees only what they need.

True PWA — Works Offline

Installs to homescreen. Push notifications for swaps, time-off, and late arrivals. Works in kitchens and basements with poor signal.

IMPACT FOR MANAGERS

Admin time saved	**5+ hrs/week**
Labour cost visibility	**Real-time**
EHO inspection readiness	**Always**
Staff onboarding	**PIN & go**
Full setup time	**< 15 min**

THE PRODUCT

Built for the kitchen, not the boardroom

A purpose-built PWA that installs in seconds, works offline, and requires zero training. Staff use simple PINs — no passwords, no app store.

Compliance Dashboard

Fridge logs, cleaning schedules, allergen registry, delivery checks — all in one view with pass/fail indicators.

Rota Builder

Drag-and-drop weekly rotas with AI auto-fill, shift templates, and instant push notifications to staff.

HQ Dashboard

Multi-venue overview: compliance scores, labour costs, and staff metrics across all your sites in real time.

THE TEAM

Built by someone who knows the industry

Solo founder with deep hospitality domain expertise and full-stack engineering capability. Hiring with funding.

DG

Darragh Guy

Founder & CEO

Product professional with extensive hands-on hospitality experience. Built Pelikn from a deep understanding of the daily friction venue managers face — the compliance gaps, the rota chaos, the invisible labour costs. Translated that domain expertise into a live product that solves real operational problems.

Hospitality Domain

Extensive experience in venue operations. Knows exactly where compliance and staffing systems break down in practice.

Product Leadership

Defined the full product roadmap and shipped 20+ modules. Deep focus on usability for non-technical hospitality staff.

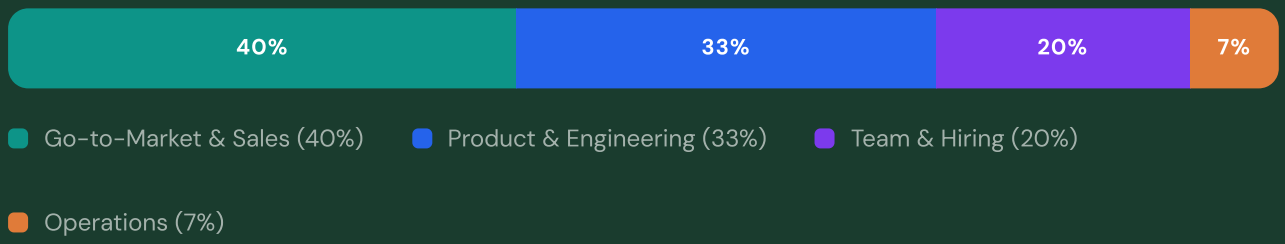
Hiring Plan

First hires: Growth marketer (Q3 2026), Customer success (Q4 2026), Senior engineer (H1 2027).

THE ASK

£150,000 Pre-Seed

18 months of runway to reach 300+ paying venues, prove unit economics, and position for a strong Series A.



Proven Product

Live platform with 20+ modules, zero external funding to date. Your capital accelerates growth, not R&D.

Clear Path to Revenue

Conservative target: 300 venues at £25/mo average = £90k ARR within 18 months.

Capital Efficient

87% gross margins, £45 CAC, 8.4x LTV:CAC. SaaS economics that compound.

Massive Market

£1.2B TAM with <1% penetration needed for Series A readiness.
