

Stop running your kitchen on *clipboards*.

One app for food safety compliance, staff scheduling,
timesheets, HR and daily checks. Built for busy kitchens.
Ready in under 10 minutes.

Compliance Hub

Temperature logs, allergens, EHO audit prep

Rota & Timesheets

Scheduling, clock-in, payroll export

HR & Leave

Staff files, contracts, holiday management

Daily Checks

Opening, closing and cleaning checklists

THE REALITY

Sound *familiar*?

If you're managing a hospitality team, you
already know what the problem looks like. Here's
what Pelikn fixes.

BEFORE PELIKN

A clipboard, a whiteboard, and a group chat.

The typical hospitality operation runs on a patchwork of
paper logs, WhatsApp messages, and spreadsheets that
nobody fully trusts. Every week is a scramble.

- ✗ Temperature logs left blank mid-service
- ✗ Rota changes communicated by text, then forgotten
- ✗ Holiday requests on post-it notes
- ✗ EHO inspection arrives – 20 minutes hunting for records
- ✗ Payroll takes half a day to reconcile each month
- ✗ Staff contracts filed in a drawer nobody can find

WITH PELIKN

Everything in one place. On every phone.

One app the whole team uses – from the head chef logging
temperatures to the manager publishing the rota.
Everything connected, everything timestamped, everything
findable.

- ✓ Temperature logs completed on-device, signed
automatically
- ✓ Rota changes push-notified to every affected team member
- ✓ Holiday requests submitted and approved in the app
- ✓ EHO arrives – hand them your phone, 90 days of records
- ✓ Timesheets approved in minutes, CSV ready for payroll
- ✓ All staff documents in secure digital files, searchable

6–8hrs

average time a hospitality manager spends on admin per week – Pelikn automates most of it

68%

of UK hospitality businesses still use paper or spreadsheets for food safety records

£25/mo

entire Pelikn platform – less than the cost of one hour of admin time, every month

IN PRACTICE

A day with *Pelikn*

What a typical day looks like when your whole team is running on one platform.

7:30

Opening checks completed

The morning chef opens the Pelikn app and works through the opening checklist – fridge temps, surface hygiene, date labels checked. Each task signed with a timestamp. Manager sees it done from home before they've arrived.

DAILY CHECKS

9:15

Delivery temperature logged

A fish delivery arrives. The chef probes the crate – 3°C, within range. Logged in Pelikn in 20 seconds. If it had failed, a corrective action prompt would have appeared immediately, creating a compliant record of the decision made.

COMPLIANCE HUB

11:00

Rota updated after a sick call

A team member calls in sick. The manager adjusts the rota on their phone – moves a shift, offers it to an available team member. The affected staff get push notifications. No WhatsApp group required.

ROTA

14:30

Holiday request approved

A team member submits two weeks' leave for August. The manager sees the request, checks the team calendar for coverage, and approves with one tap. The leave balance updates automatically. No sticky notes involved.

LEAVE

17:45

EHO inspector arrives unannounced

The inspector wants to see temperature records for the past 90 days, allergen information, and corrective actions taken. The manager opens Pelikn, hands over the phone. Every record is there – timestamped, signed, filterable. The inspection is over in 40 minutes.

COMPLIANCE HUB

23:00

Closing checks signed off

The closing manager completes the end-of-night checklist – cleaning records, fridge checks, lock-up. Signed, timestamped, sent to the manager dashboard. Another compliant day, documented without a single piece of paper.

DAILY CHECKS

Six modules. *One subscription.*

Every feature below is included in a single Pelikn subscription. Unlimited staff, unlimited users, one flat monthly price.

Compliance Hub

Temperature logging, allergen records, HACCP-aligned checklists, EHO audit prep – all with corrective action trails and PDF export.

- Probe temp logs with pass/fail thresholds
- 14-allergen matrix (Natasha's Law)
- EHO inspection simulator
- 90-day record history, exportable

Leave Management

Staff submit holiday requests in the app. Managers approve with one tap. Team calendar shows coverage gaps before they become a problem.

- Annual leave balance tracking
- Approve/decline with reason
- Team overlap calendar view
- All statutory leave types

Rota & Scheduling

Drag-and-drop weekly rota with live labour cost preview, conflict detection, and instant push notifications when shifts change.

- Visual grid rota builder
- Contract-hour conflict warnings
- Shift swap requests in-app
- Multi-venue support

HR & Staff Files

Secure digital staff files for contracts, certifications, and disciplinary records – with expiry reminders so nothing slips through.

- Document upload & storage
- Certification expiry alerts
- Disciplinary & grievance log
- Right-to-work record keeping

Timesheets

Staff clock in and out on their phone. Managers approve. Zero-hours holiday accrual calculated automatically. Payroll export in minutes.

- GPS-assisted clock-in/out
- 12.07% zero-hours accrual
- Manager approval workflow
- CSV payroll export

Daily Checks

Custom opening, service, and closing checklists – with photo evidence per task and real-time completion visible to managers.

- Custom checklist builder
- Photo capture per task
- Real-time manager dashboard
- Escalation for missed items

Available on **iOS**, **Android**, and **web**. Works offline – syncs automatically when back online. No hardware required. Your team is set up in under 10 minutes.

- ✓ Unlimited staff · No per-user fees
- ✓ Multi-venue dashboard

£15

per additional venue / month

For operators running more than one site. Add venues at a reduced rate, with centralised oversight across all locations.

- ✓ Everything in Pro at each venue
- ✓ Cross-venue compliance dashboard
- ✓ Centralised staff management
- ✓ Group-level reporting
- ✓ Priority support

Optional add-on: Pelikn QR – digital menu with allergen display · **£1/month** per venue Annual billing available · Cancel any time · 14-day free trial – no card required

For a 20-person kitchen, Pelikn Pro costs less than £1.25 per team member per month.

Competitors that charge per user would cost the same team £80–£120/month. Flat pricing is one of the reasons Pelikn wins against tools that start cheap and scale expensively.

70%

cheaper than per-user alternatives for a team of 20

Your kitchen. Less admin. *Better records.*

Start a 14-day free trial today – no card required. Your team can be set up and running their first compliance check in under 10 minutes.
