INVESTOR PRESENTATION · APRIL 2026

SafeServ

The all-in-one operations platform replacing paper checklists, spreadsheet rotas and compliance chaos in independent hospitality.

RAISING	MODEL	MARKET	STAGE
£150k Pre-Seed	B2B SaaS	UK & Ireland	Product Live

THE PROBLEM

Independent venues are drowning in admin

180,000+ UK food businesses rely on fragmented, manual processes that waste time, cost money and put food safety ratings at risk.

Paper Compliance

HACCP logs and fridge checks in ring binders. Inspectors find gaps. Venues fail ratings. Average EHO fine: £10,000+.

Spreadsheet Rotas

Managers spend 3–5 hours weekly on Excel rotas and WhatsApp shift swaps. Timesheets are guesswork. Labour costs are invisible.

Tool Fragmentation

Separate apps for temps, rotas, allergens, training, and tasks. Five logins, five bills. Staff won't use any of them.

56%
OF INDEPENDENT VENUES STILL USE PAPER FOR FOOD SAFETY

3–5 hrs
SPENT ON ROTA ADMIN PER WEEK

£75+/mo
AVERAGE SPEND ON FRAGMENTED TOOLS

THE SOLUTION

One app. Every operation. Zero paper.

SafeServ replaces the binder, the spreadsheet and the WhatsApp group with a single mobile-first platform purpose-built for independent hospitality.

HACCP-Grade Compliance

Fridge temps, cooking logs, hot holding, cooling records, probe calibration, cleaning schedules, delivery checks — all timestamped and audit-ready.

Smart Rota & Time Tracking

AI-assisted rota builder, PIN clock-in/out, break deductions, overtime alerts, CSV timesheet export. Real-time labour cost visibility.

Granular Staff Permissions

13 permission types across 3 categories. Presets for daily staff, senior staff and full access. Each team member sees only what they need.

True PWA — Works Offline

Installs to homescreen. Push notifications for swaps, time-off, and late arrivals. Works in kitchens and basements with poor signal.

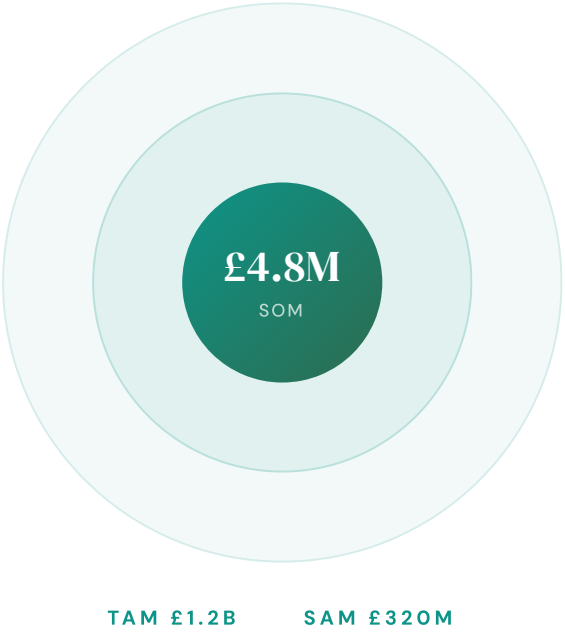
IMPACT FOR MANAGERS

Admin time saved	**5+ hrs/week**
Labour cost visibility	**Real-time**
EHO inspection readiness	**Always**
Staff onboarding	**PIN & go**
Full setup time	**< 10 min**

MARKET OPPORTUNITY

£1.2B addressable market

180,000+ independent food businesses in the UK. Most still use paper or nothing. The shift to digital is inevitable — and it's just beginning.



TAM — £1.2B

All UK food businesses × average ops software spend (£55/mo). Restaurants, cafes, pubs, hotels, takeaways, caterers.

SAM — £320M

~180k independent venues (excluding chains with enterprise solutions) willing to adopt digital compliance tools.

SOM — £4.8M (Year 3)

1,500 venues at blended £265/year ARPU. Conservative 0.8% penetration of SAM.

COMPETITIVE LANDSCAPE

They do one thing. We do everything.

Competitors are point solutions. SafeServ is the only platform combining food safety compliance and workforce management at indie-friendly pricing.
